ASSEMBLY

School assemblies play a vital role in the overall development of children aged 3 to 8 by fostering a sense of community, discipline, and learning. They bring students together, creating a feeling of belonging and unity within the school. Assemblies help instill moral values such as kindness, respect, and honesty through stories, songs, and discussions. They also provide young children with opportunities to develop confidence by participating in activities like singing, reciting poems, and performing skits, which enhance their public speaking skills. Additionally, assemblies promote listening and learning skills, encouraging focus and comprehension. Special assemblies on cultural and national events introduce children to diversity and traditions, fostering awareness and appreciation. Moreover, they establish a sense of routine and discipline, teaching the importance of punctuality and structured learning. Overall, school assemblies serve as a platform for both personal and social growth, making them an essential part of early education.

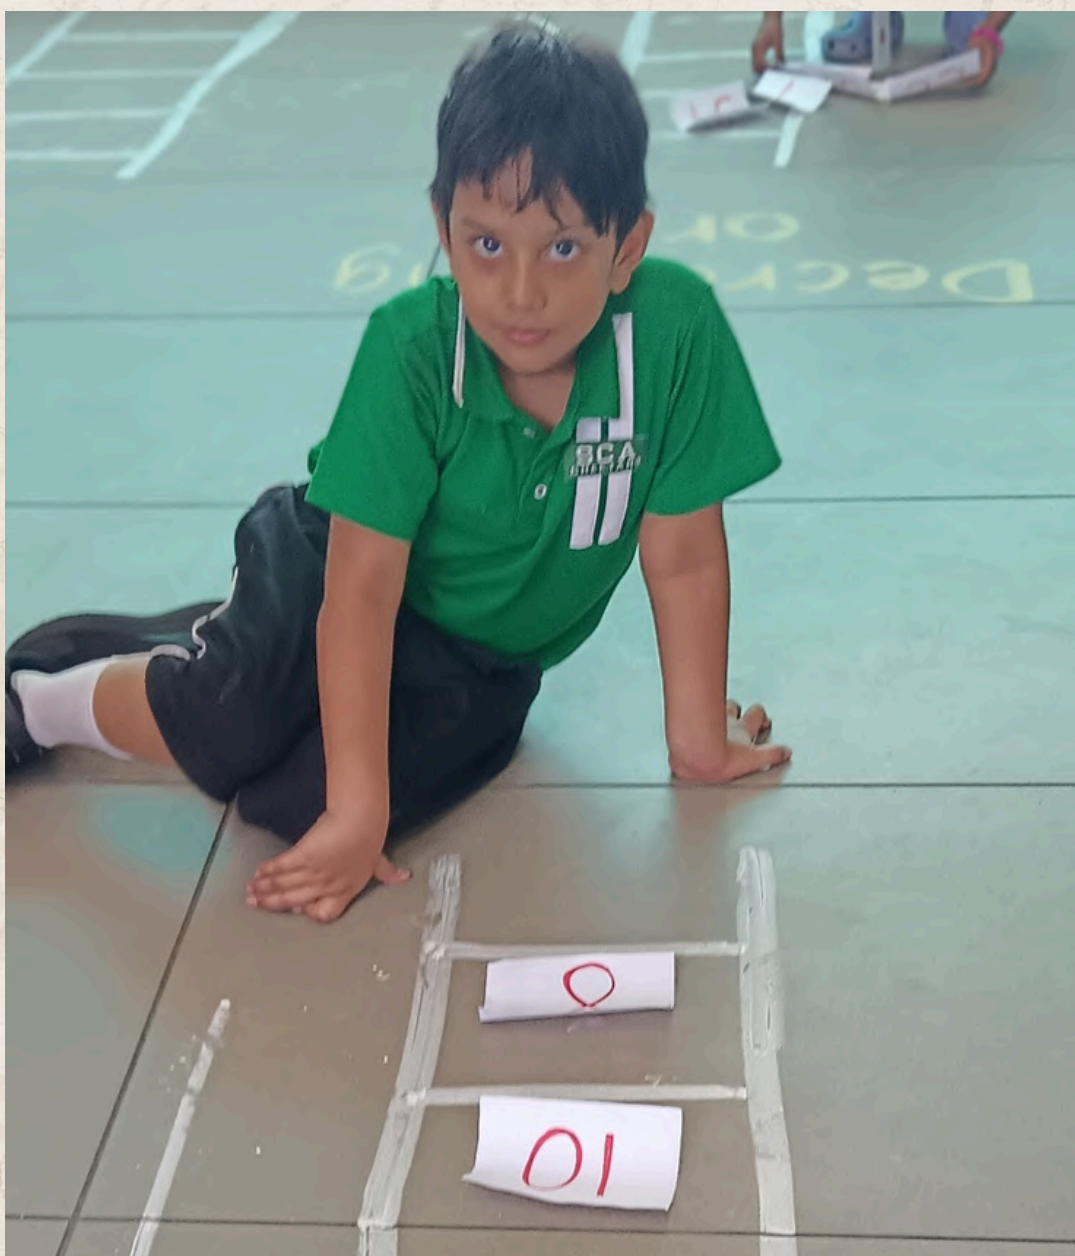

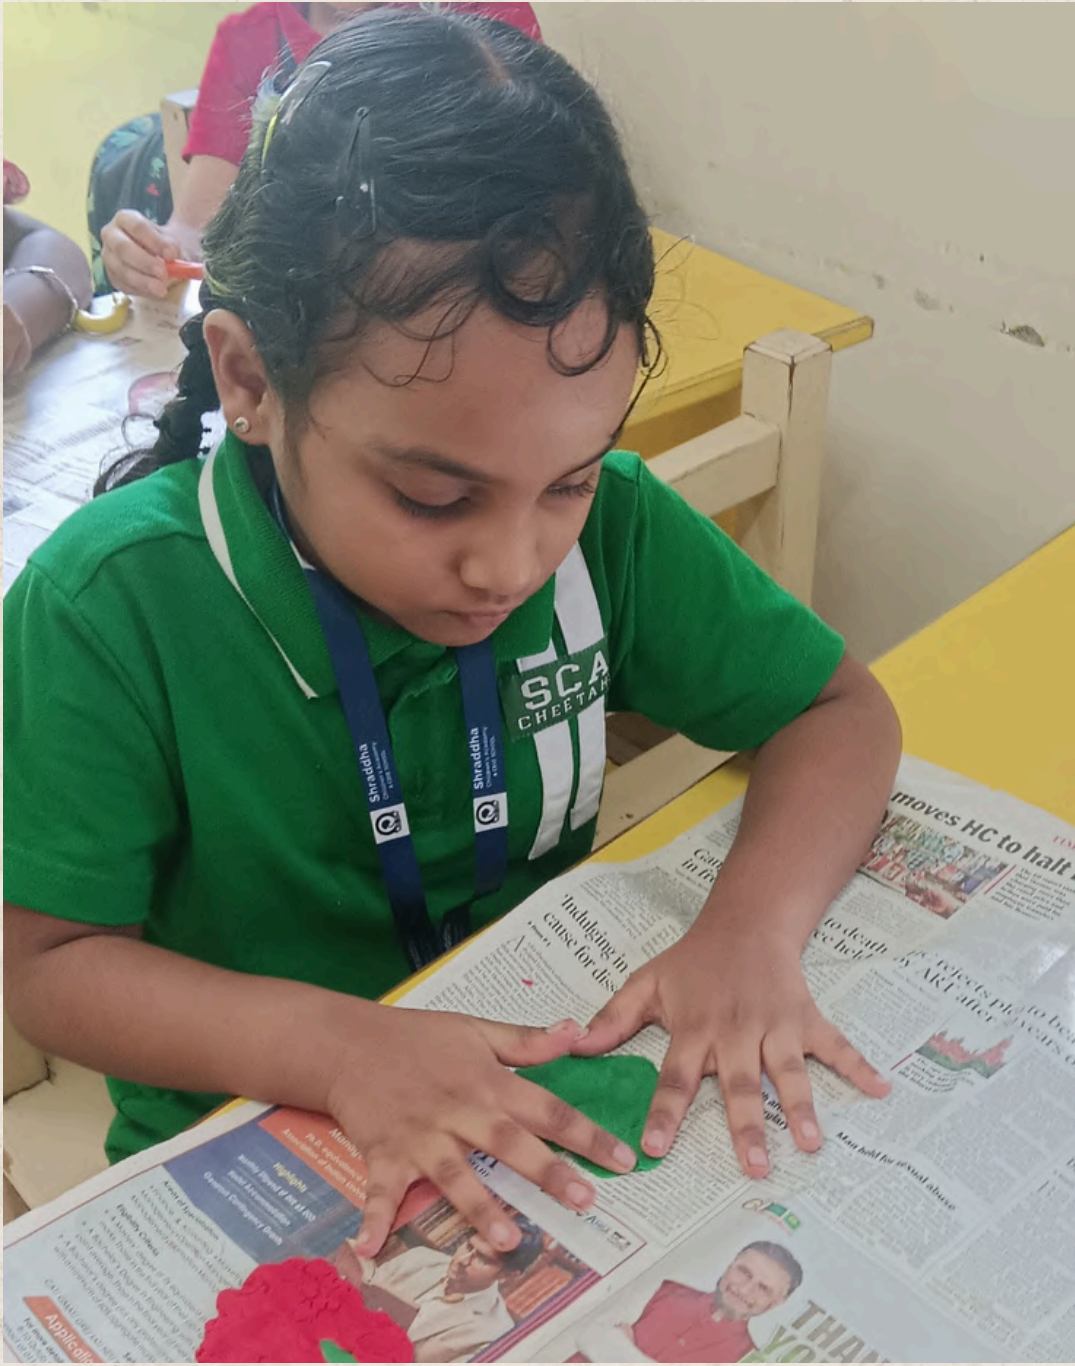

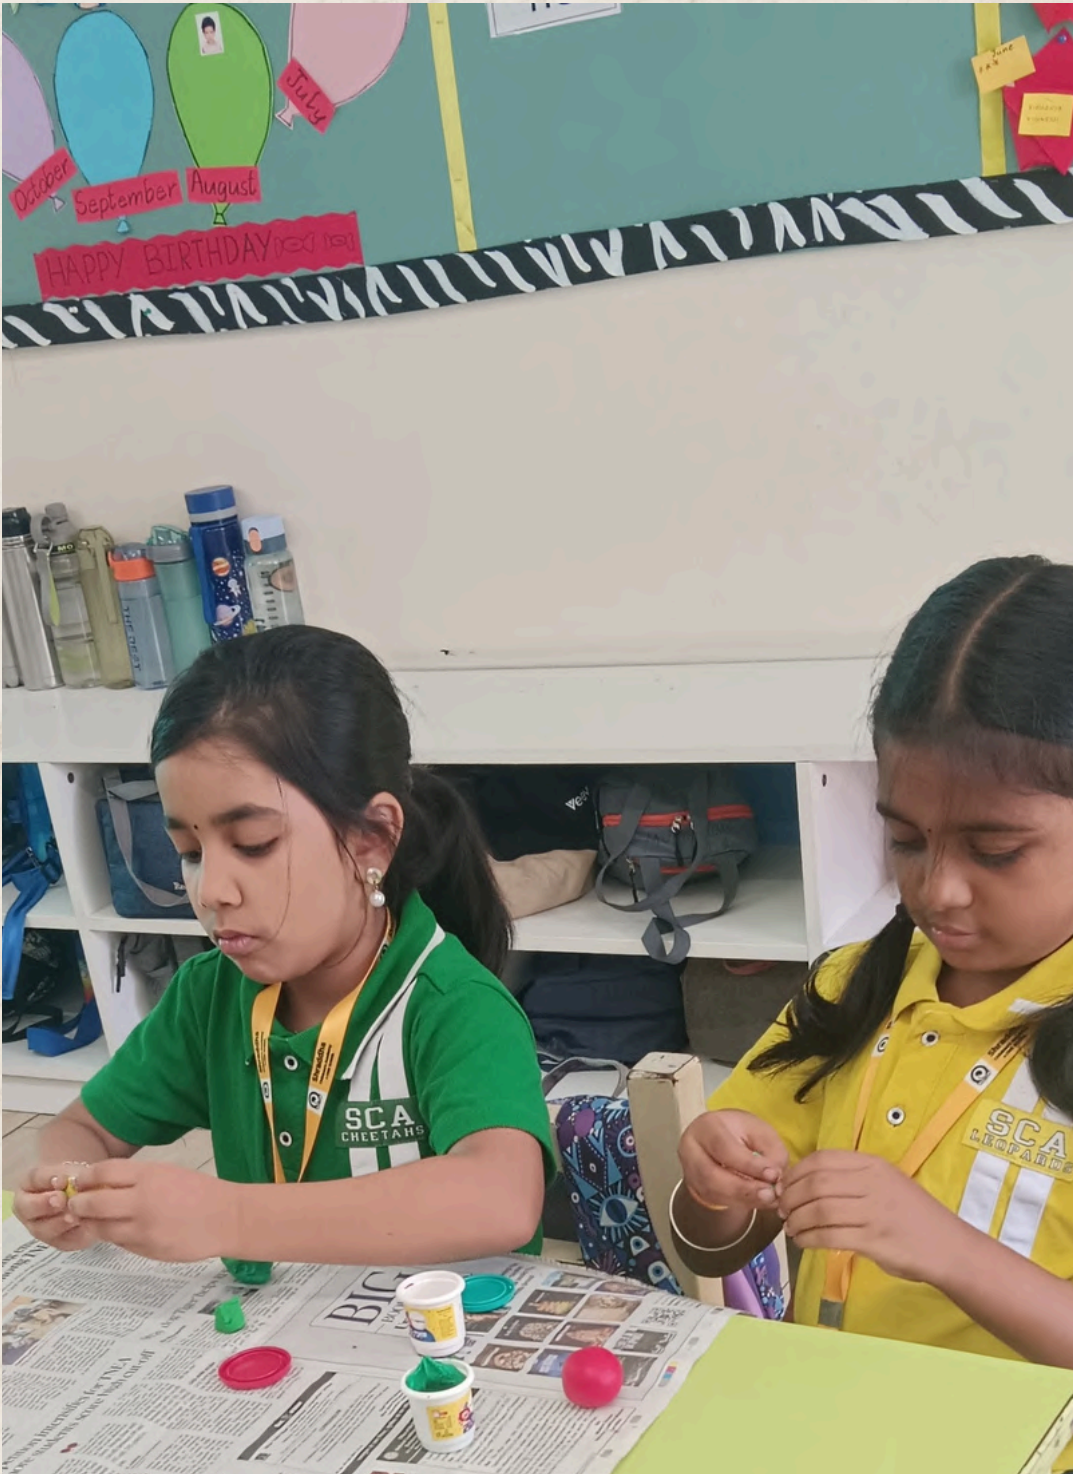

CLASS ACTIVITIES

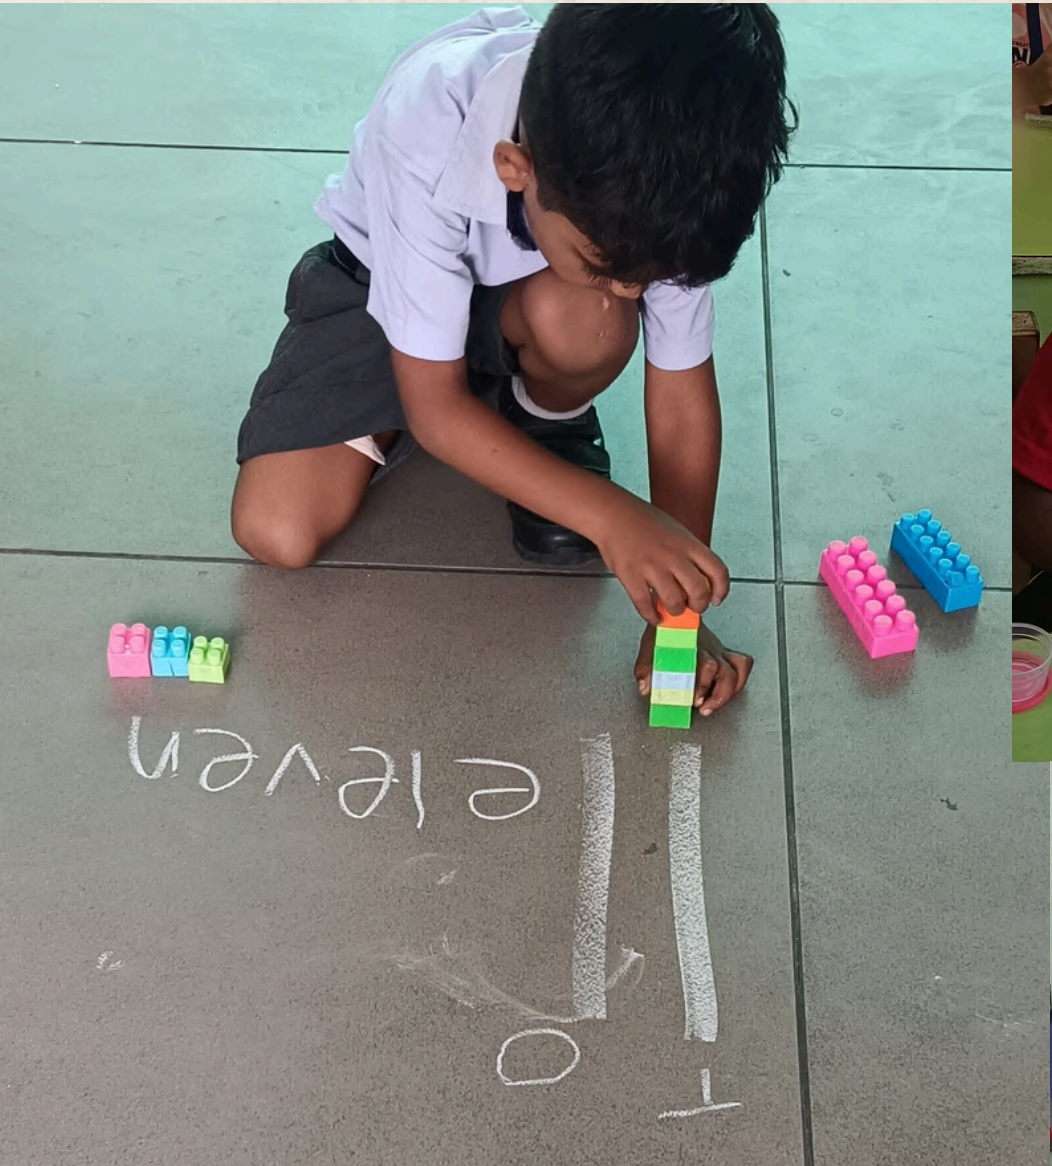

Class activities play a crucial role in helping students understand and retain concepts effectively. Engaging in hands-on activities makes learning more interactive and enjoyable, allowing children to grasp abstract ideas with ease. These activities promote active participation, critical thinking, and problem-solving skills, enabling students to apply theoretical knowledge to real-life situations. Through group work and discussions, students also develop communication and teamwork skills, fostering a collaborative learning environment. Moreover, class activities cater to different learning styles, ensuring that visual, auditory, and kinesthetic learners all benefit. By making lessons more engaging and practical, class activities enhance comprehension, boost confidence, and encourage a deeper interest in learning.

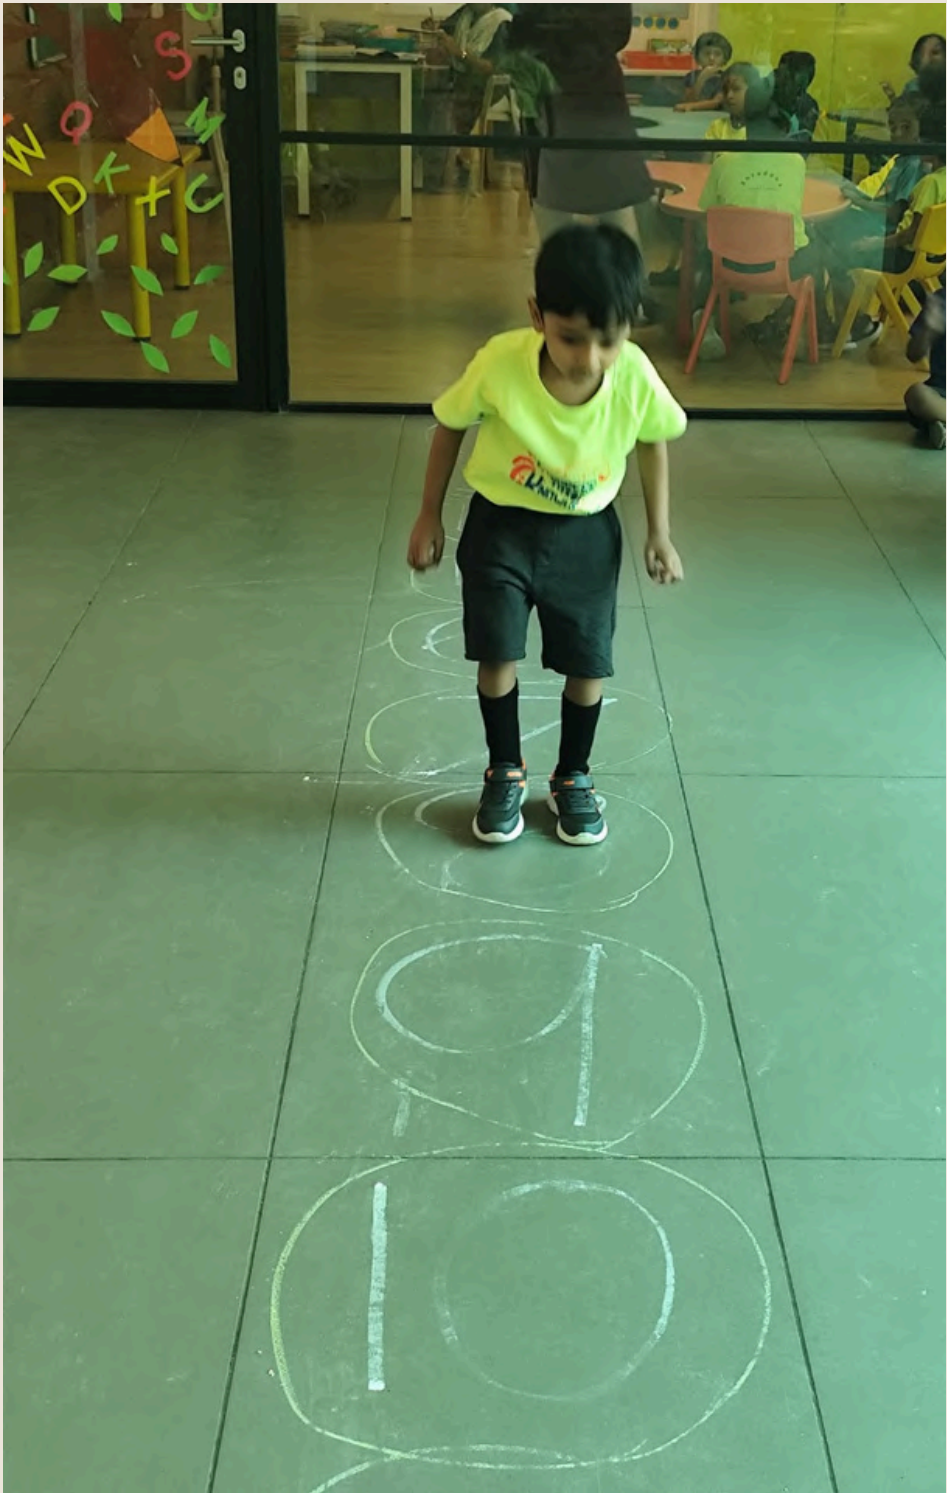

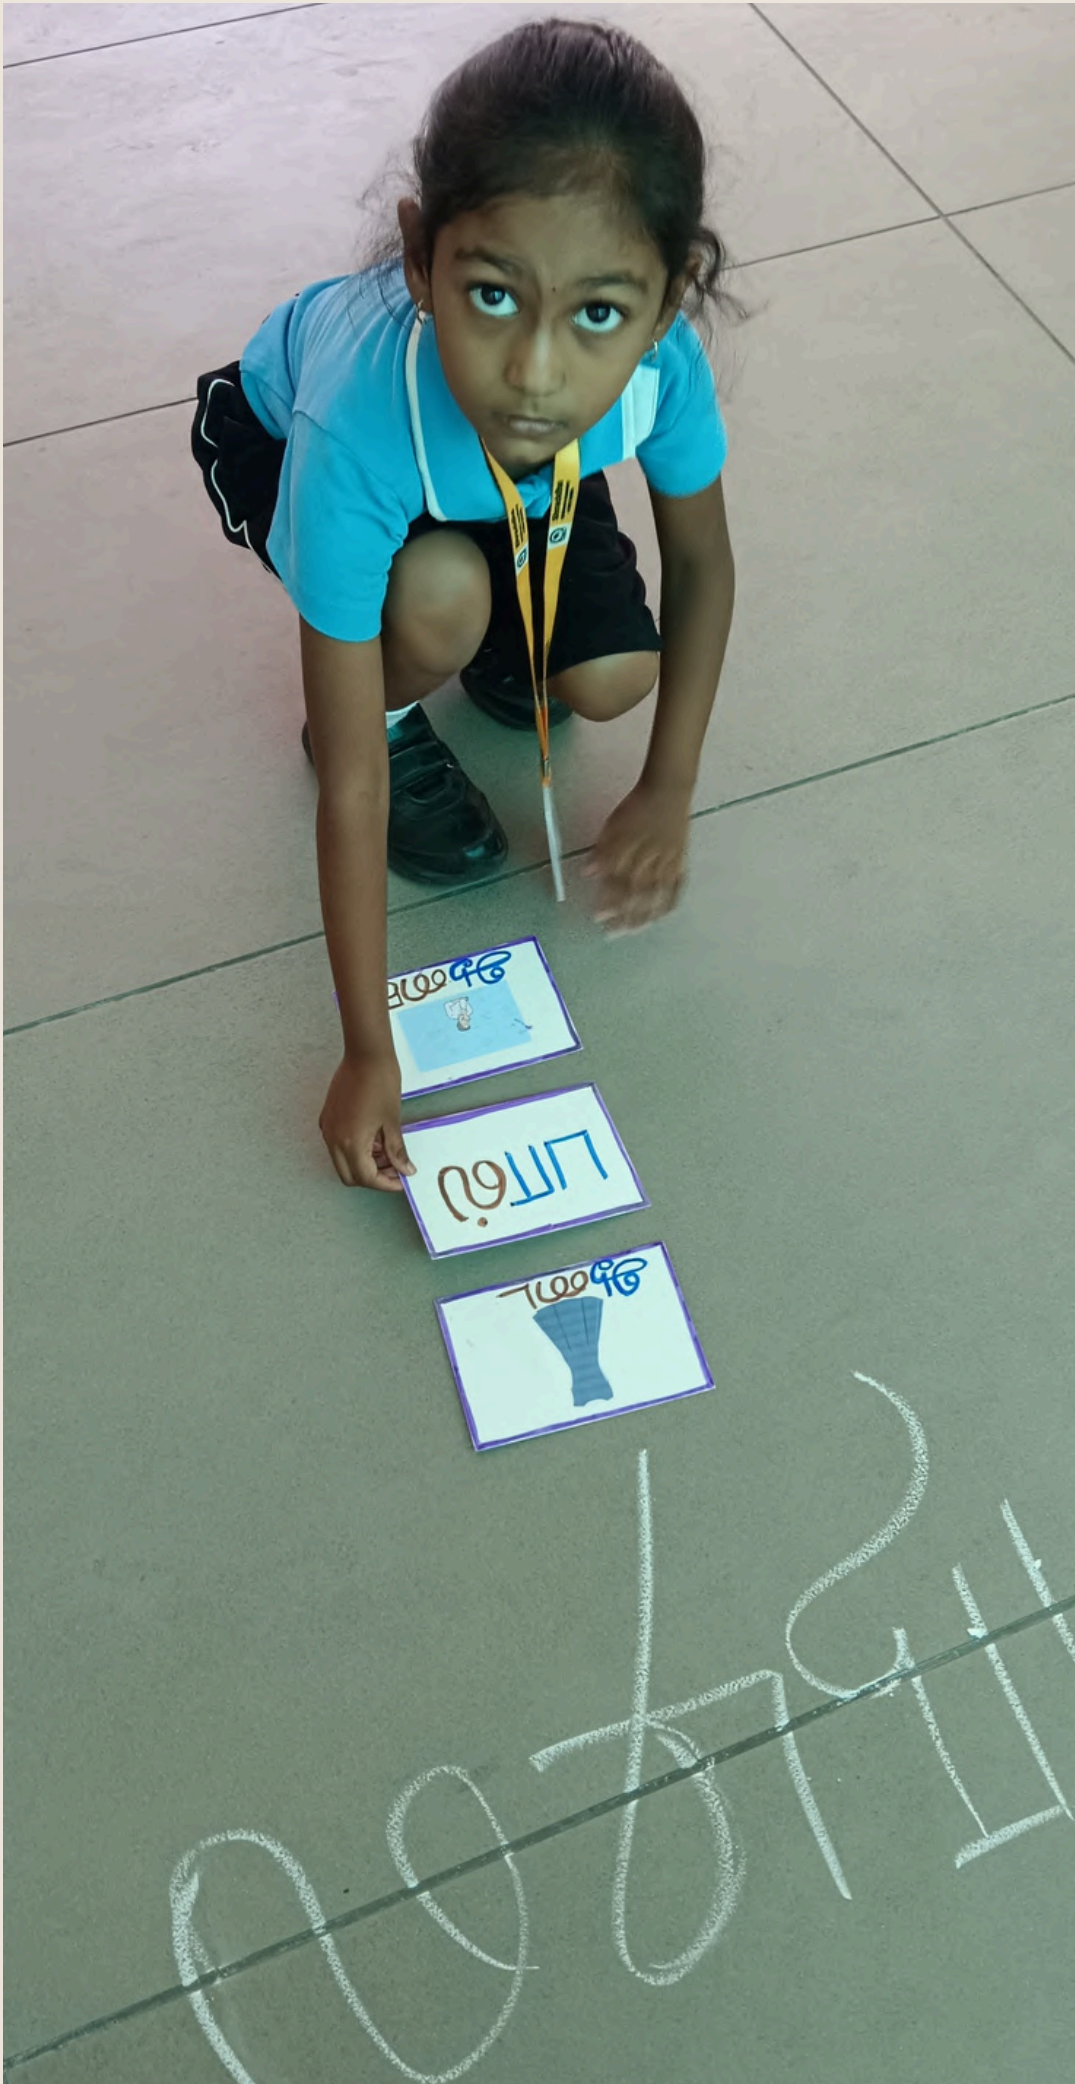

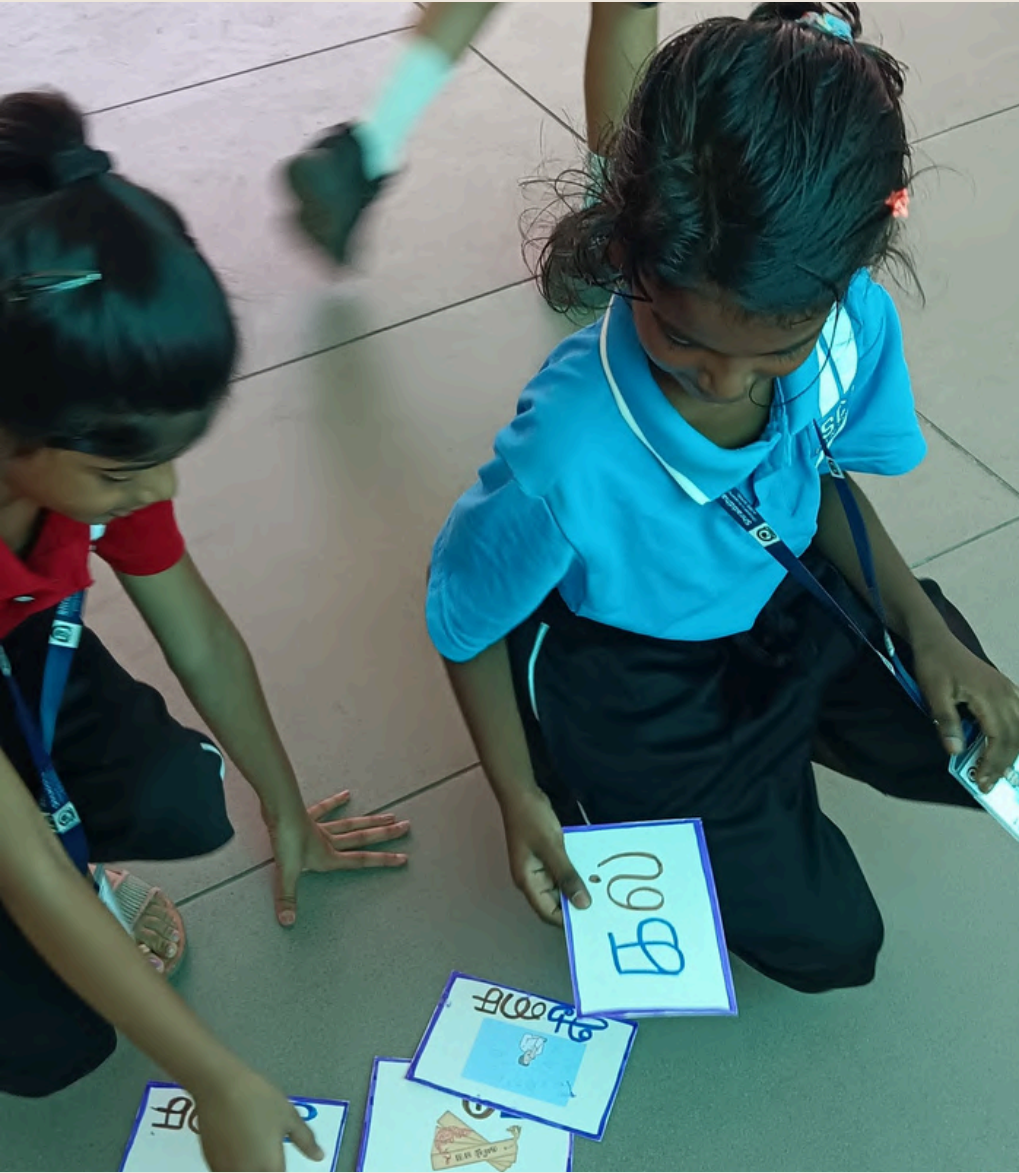

PARENTS- TEACHER MEETING

PTMs provide a dedicated time for parents and teachers to openly discuss a student's performance, behavior, and social development. Teachers can share specific insights into a student's performance in different subjects, highlighting strengths and areas needing attention. PTMs help identify potential academic or behavioral issues early on, allowing for timely intervention and support. Regular PTMs help build trust and rapport between parents and teachers, fostering a positive and supportive environment for the student. PTMs allow for discussions about a student's behavior, social skills, and participation in school activities, enabling collaborative problem-solving.

KAMARAJAR DAY

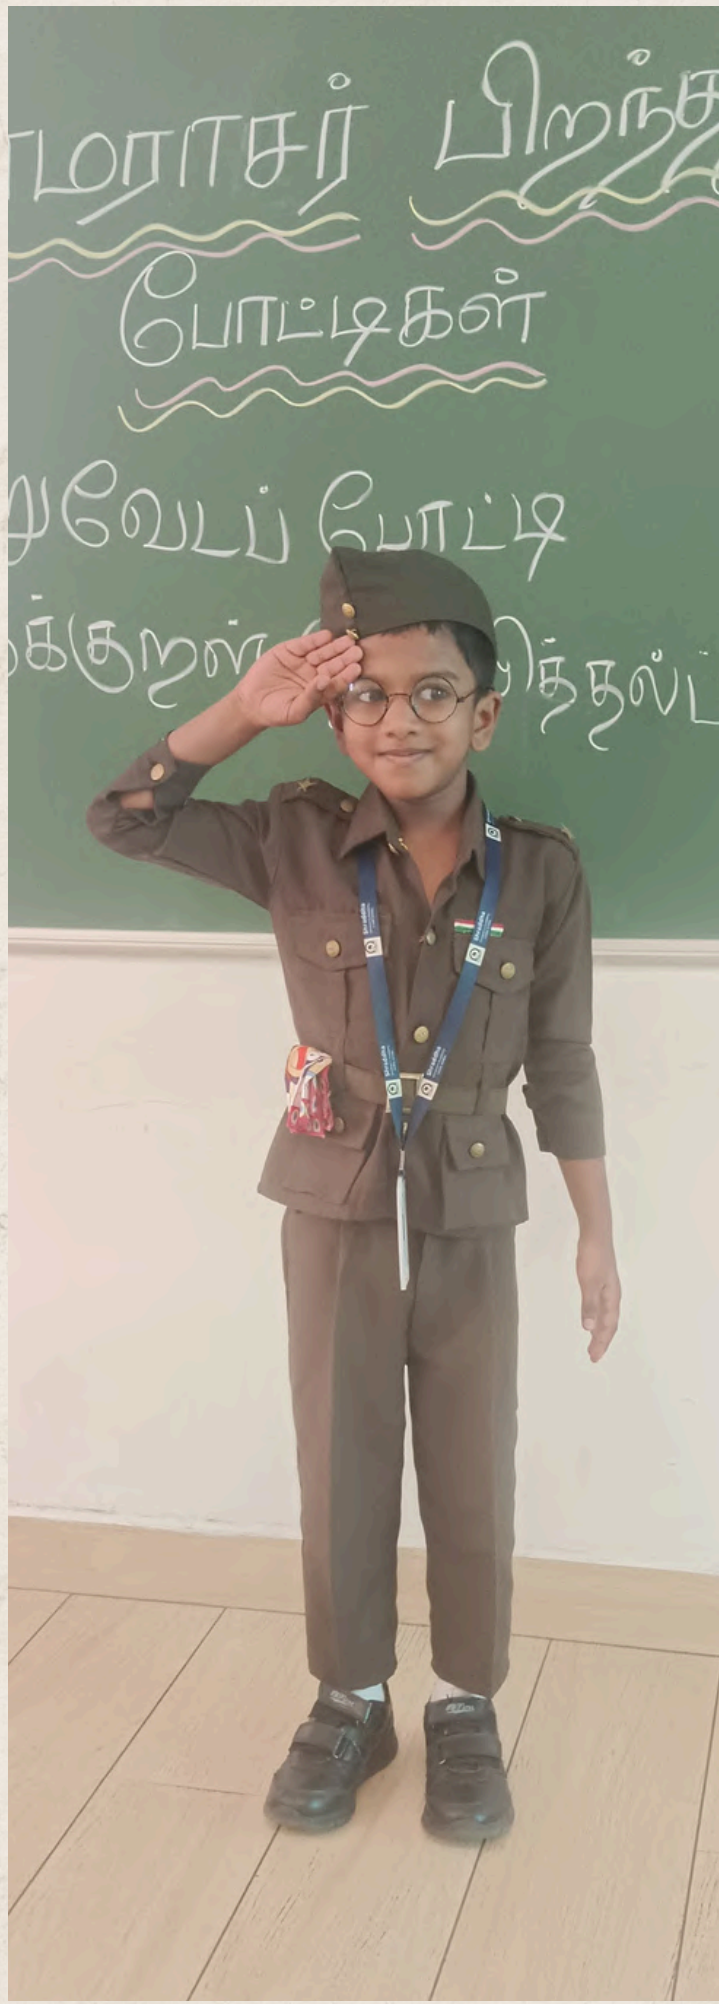

Kamarajar Day, celebrated on July 15th, aims to commemorate the birth anniversary of K. Kamaraj, the former Chief Minister of Tamil Nadu, and honour his contributions to education and social welfare. The day is observed as "Education Development Day" with the objective of raising awareness about his initiatives like free and compulsory education and the Midday Meal Scheme, and inspiring students and educators to uphold his legacy. This event is to remember and celebrate the life and work of K. Kamaraj, recognizing his significant impact on Tamil Nadu. By showcasing Kamaraj's achievements, the celebrations aim to inspire students, teachers, and the public to strive for similar goals of social upliftment and educational progress.

CARNIVAL DAY

Carnival celebration providing a fun and engaging experience for students, families, and the community. These events incorporate various activities like games, food stalls, and entertainment, fostering a sense of community and school spirit. School carnivals are a popular way to raise money for various school initiatives, from equipment upgrades to extracurricular activities. The primary goal is to create a festive atmosphere where everyone can enjoy themselves through games, food, and entertainment.

CARNIVAL DAY

TIGER DAY

“The tiger is a symbol of beauty, strength, and nationality so save the Tiger and save our nation' pride.” It is observed on 29th July each year. To promote this cause, our little Indianities of classes Pre School to II participated enthusiastically in special activities on the occasion. This event would raise awareness about tiger conservation, educate students on the importance of protecting tigers and their habitats, and instill a sense of responsibility towards wildlife conservation in the younger generation. This event would ensure the survival and maintenance of viable tiger populations in their natural habitats within India.

SCIENCE WEEK

The main objectives of Science Week are to engage and inspire people of all ages with science, engineering, and technology, promote public awareness and understanding of science's importance, stimulate interest in STEM subjects from early childhood, and provide a platform for showcasing scientific and technological advancements and innovations. Encouraging interaction and participation from all stakeholders within the national innovation system. Fostering curiosity and encouraging the exploration of Science, Technology, Engineering, and Mathematics subjects from early childhood through secondary levels.

RED DAY

RED day event focus on introducing and reinforcing the colour red for young learners, fostering colour recognition and identification, and enhancing fine motor skills and creativity through engaging, red-themed activities and crafts. Engaging children in activities like crafts and art, which helps develop fine motor skills through actions like cutting, pasting, and painting with red materials. Enhancing visual and cognitive skills by distinguishing shades of red and sorting/classifying red objects, which can improve decision-making and attention to detail. Using the colour red as a starting point to discuss emotions and behaviors associated with colours, promoting emotional intelligence. Providing a platform for children to express their creativity through red-themed artwork and activities.

DAYCARE PARENT PROGRAM

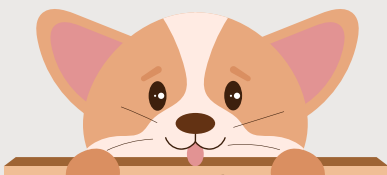

SNACK TIME

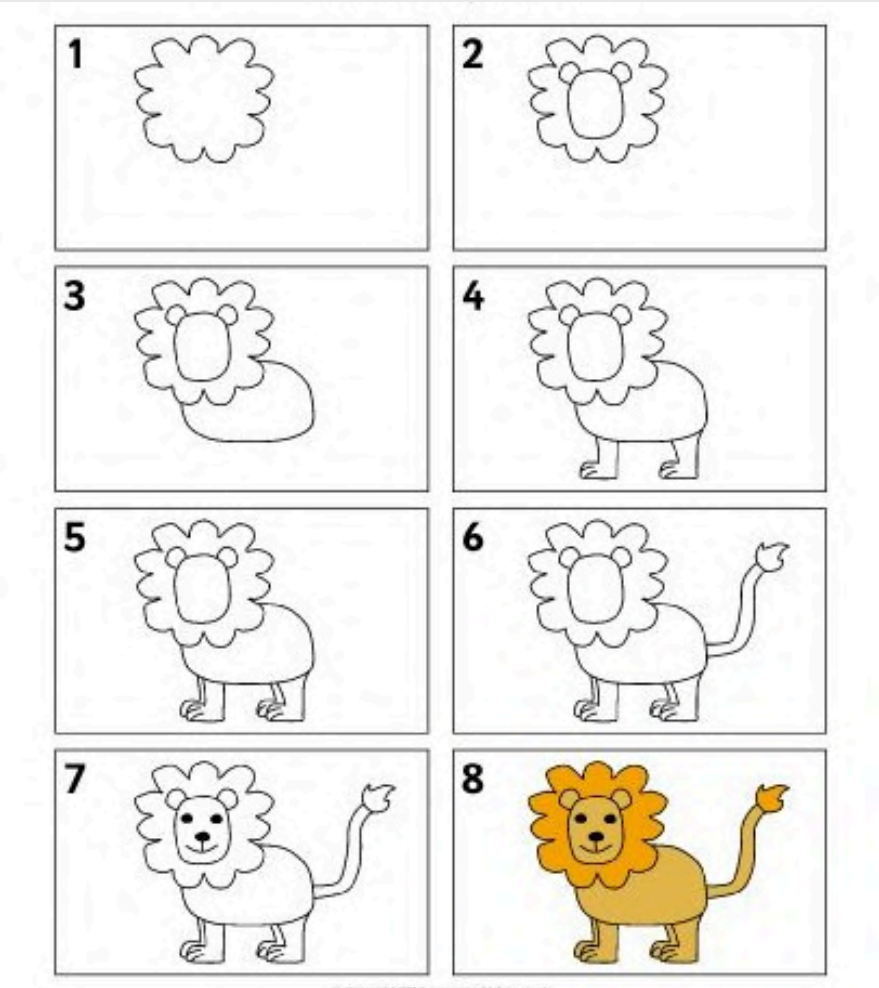

Snack Time is more than just eating. It’s a valuable opportunity for children to develop practical life skill such as pouring drinking water, using utensils and cleaning up. It also encourages independence and courtesy.

KIDS CORNER

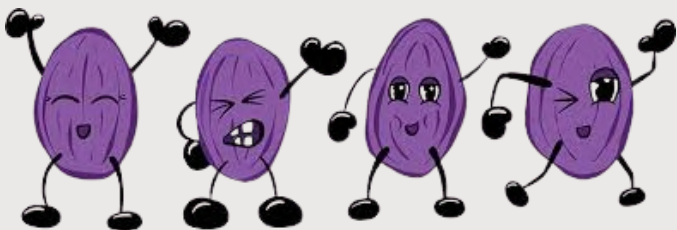

LET'S DRAW

Dancing Raisins

What you need: Clear carbonated soda (e.g. Sprite), raisins or small fruit bits, transparent glass.

How to do it: Drop raisins into soda and observe. They'll initially sink, then rise and fall again.
