SHRADDHA SCHOOL EDUCATORS – KAIZEN @ SHRADDHA

Shraddha Children's Academy conducted its Annual Teacher Training across all branches with a focused four-day program. Kindergarten teachers actively participated in subject-specific sessions that deepened their understanding of early childhood education.

The training enriched our teaching practices through hands-on strategies, child-centered approaches, and engaging classroom techniques.

We thank our Principal and Management for prioritizing professional growth, ensuring we continue to provide the best for the little ones in our care.

Parent Orientation Building Bridges Together

On 31st May, Our school welcomed Kindergarten parents for the Parent Orientation session, marking the beginning of a collaborative journey between home and school.

The session aimed to familiarize parents with the school's vision, daily routines, curriculum framework, and child-centered learning approach. Our Principal Ma'am, shared insights into classroom practices, assessment methods, and how life skills, play-based learning, and values are seamlessly woven into the day.

It was a valuable opportunity to address questions, set expectations, and build a strong partnership to ensure the holistic development of every child.

Together, we look forward to nurturing curious minds and happy hearts!
