Sunny Smiles and Yellow Delights - Yellow Day

What a bright and cheerful day we had celebrating Yellow Day at Shraddha Tambaram! The little ones and teachers were all dressed in vibrant shades of yellow, turning our school into a sea of sunshine.

The students brought so much energy and joy, dressed in their brightest yellow outfits. The day was packed with fun, including lively 'Music and Movement' sessions, delicious yellow-themed snacks, and a wonderful toy-sharing activity.

The highlight was definitely the confident ramp walk by our little stars. It was a day filled with laughter, learning, and unforgettable yellow memories!

Shape Me Up: A Clay Modeling Competition!

We celebrated creativity and learning with our inter-class "Shape Me Up" competition! The little ones enthusiastically took on a series of fun challenges, each with a unique theme, turning learning about shapes into a vibrant, hands-on experience.

The youngest participants in Pre-KG had a blast with the theme 'Flower'. Students expertly shaped colorful clay into beautiful petals, leaves, and stems, creating intricate bouquets and single blossoms. Their stunning creations truly bloomed with detail and artistry.

The students of LKG brought the magic of metamorphosis to life with their butterfly theme. They used a variety of shapes to form delicate wings and bodies, adding vibrant colors and patterns. Each unique butterfly was a testament to their growing skills and endless imagination.

The students of UKG displayed their fine motor skills and creativity with the theme 'Garden'. They used simple shapes to create a charming world of clay vegetables, fruits, and little critters. Their tiny hands crafted delightful scenes that captured the essence of a lively garden.

The competition was a fantastic way to blend fun and learning, allowing our students to explore shapes and express their creativity in a hands-on way. Students amazing work were well appreciated by everyone!

Play Based Learning

Blindfold activity

Our curriculum for students is built on the foundation of play-based learning, where we create a nurturing and stimulating environment that allows children to explore, discover, and develop at their own pace. The activity like Blindfold encourages children to rely on senses other than sight, such as touch, hearing, and smell, to navigate their surroundings and identify objects. This approach recognizes that every child is naturally curious and learns best through hands-on experiences rather than rigid, traditional instruction.

Scavenger Hunt for Letters

It helps students to recognize and identify letters in a hands-on, engaging way, moving beyond traditional flashcards or worksheets.

Dodge Ball

Such activities focus on developing fundamental motor skills and promoting social interaction in a fun, safe, and engaging way

LIGHTS, CAMERA, ACTION - MOVIE MAGIC

Role play of a Ticket seller :

It helps them learn numeracy, improve communication, and develop social skills, all while boosting their creativity and confidence.

What a fantastic time the little ones had at the special "KG Movie Buzz" event recently! The campus was buzzing with excitement as our young students got to enjoy a fun and cozy movie experience right here at school.

Role play of a Ticket collector :

This teaches them responsibility, apart from improving numeracy and social skills.

Checking the number on their ticket and then locating the corresponding seat helped students to develop their numeracy skills.

The children gathered in their classrooms, which were transformed into mini-theaters for the day. They watched a delightful, age-appropriate movie, cheering and giggling along with their friends.

Role play as a Popcorn Seller

It helps kindergarteners to improve the social skills along with their fine motor skills and confidence.

The highlight of the event was undoubtedly the popcorn interval! The aroma of freshly popped corn filled the air as each child received their own little box of popcorn to munch on. It was a perfect treat that truly completed their movie-watching adventure.

It was wonderful to see the joy on their faces as they shared this special activity with their classmates.

The primary objective is to reinforce the importance of good manners in a group setting. Children learn that they are not allowed to shout or disturb others, ensuring that everyone can enjoy the activity. This teaches them empathy and respect for their peers. Additionally, the event emphasizes cleanliness and personal responsibility by instructing children to dispose of their popcorn bags and other trash in a designated dustbin after their snack.

This simple act helps instill a sense of accountability and the habit of keeping their environment tidy from a very young age.

EMBRACING OUR ROOTS: PARAMBARIYAM - BUDDY AND ME!

Shraddha Tambaram recently hosted "Parambaryam - Buddy and Me," a wonderful event celebrating tradition and the special bond between our students and their parents. It was a day filled with cultural spirit, strengthening family ties through fun, traditional activities.

The campus buzzed with excitement as we welcomed families dressed in beautiful traditional attire. The event was a treasure trove of cultural games and activities, designed to be enjoyed by both children and adults.

We had a fantastic mix of both on-stage and off-stage traditional games. From classic games like Pallanguzhi and Dhayam to lively challenges like Uriyadi, kho kho that had everyone cheering, the day was filled with laughter and friendly competition. Parents shared stories of their childhood games, and children got a hands-on experience with the rich traditions of our land.

Parambariyam - Buddy and Me was more than just a series of games; it was a beautiful journey back in time, a way to connect generations, and a joyful reminder of the simple pleasures of traditional play. Thank you to all the parents and children who participated with such enthusiasm, making this event a truly memorable one.
